

- A new control packet subtype is proposed
 - **pktType 00 0000b subtype 00 0011b**

Binary value	Function	Description
00 0000b	Reserved	
00 0001b	Ctrl_AxC words	Ctrl_AxC data.
00 0010b	VSD	Vendor specific control packet
00 0011b	Timing packet	A packet containing both TimeStamp and Seqnum
00 0100b – 11 1111b	Reserved	Control packet subtypes available for use between two RoE endpoints.

Timing Packet description

- The timing packet is a control packet which contains both the **seqnum** and **timestamp** field. The **flowID** field indicates which flow ID the **orderingInfo** is associated with.
