

#20150223-0949 Clause: 7.7.1 Page: 34 Line: - Commenter: Marek Hajduczenia / Bright House Networks  
Comment Status: Received Category: -

In describing VLAN modes for ONU and OLT tests, the the name of step 4 and step 5 in each test case is too generic and should reflect the name and scope of the actual test case.

Page 35, change step 4 to read: "Step 4 ONU transparent VLAN mode, upstream direction"

Page 36, change step 5 to read: "Step 5 ONU transparent VLAN mode, downstream direction"

Page 38, change step 4 to read: "Step 4 ONU tagging VLAN mode, upstream direction"

Page 39, change step 5 to read: "Step 5 ONU tagging VLAN mode, downstream direction"

Page 42, change step 4 to read: "Step 4 ONU ToS/CoS conversion VLAN mode, upstream direction"

Page 42, change step 5 to read: "Step 5 ONU ToS/CoS conversion VLAN mode, downstream direction"

Page 54, change step 3 to read: "Step 3 OLT transparent VLAN mode, upstream direction"

Page 55, change step 4 to read: "Step 4 OLT transparent VLAN mode, downstream direction"

Page 57, change step 3 to read: "Step 3 OLT tagging VLAN mode, upstream direction"

Page 57, change step 4 to read: "Step 4 OLT tagging VLAN mode, downstream direction"

Page 59, change step 3 to read: "Step 3 OLT translation VLAN mode, upstream direction"

Page 59, change step 4 to read: "Step 4 OLT translation VLAN mode, downstream direction"

Impact: None. The change is purely editorial

#20150316-1748a Clause: 2 Page: 4 Line: - Commenter: Marek Hajduczenia / Bright House Networks

IEEE Std 802.1Qâ„¸-2011 has bee updated to 2014 version, incorporating a bunch of other versions and revisions.

Change "IEEE Std 802.1Qâ„¸-2011" in Clause 2 to "IEEE Std 802.1Qâ„¸-2014".

Impact: None - it is just editorial update to the latest version of the standard
